

Iftakhar Ahmed

United Arab Emirates | +971545049398 | iftekhrahmed2003@gmail.com | ginpin21.github.io/

Web Developer with two years of experience in developing and maintaining full stack web applications. Proficient in frontend technologies, including React.js, Next.js, Vue.js, and Nuxt.js, as well as backend development with Node.js, Express.js, Fastify and PostgreSQL. Demonstrates strong expertise in diagnosing and optimizing client web and mobile applications to enhance performance and user experience.

Skilled in deploying applications consistently achieving objectives within stringent deadlines. Holds a First Class Honors degree in B.Eng. (HONS) Software Engineering from The University of Bolton. Dedicated to continuous professional growth and delivering high-quality solutions in collaborative environments.

Work Experience

Junior Web Developer (Remote) • Viewit

April 2023 - Present | Dubai, United Arab Emirates

Key Responsibilities

- Maintaining and updating the backend built on Express JS.
- Creating, maintaining and monitoring infrastructure and deployment on Azure.
- Maintained and updated the previous website built on Nuxt.js.
- Maintained and updated the mobile application built on React Native.

Key achievements

- Designed and created the infrastructure and backend for a client using Azure Services and Fastify.
- Created Azure Serverless Functions for Email and WhatsApp contact, which led to better leads.
- Implemented Google Analytics 4 (GA4) and Google Tag Manager (GTM) for clearer analytics and insights.
- Added a completely new blog page using WordPress as a headless CMS, which increased traffic to the website by 20%.
- Overhauled the website to give it a modern look and make it more responsive.

Web & Application Engineer (Remote) • The Corporate Lounge

November 2023–June 2024 | Florida, United States of America

Key Responsibilities

- Debugging client web and mobile applications using React.js and AWS services like Lambda, RDS, Cognito, Appsync and Amplify.
- Updating and maintaining client applications.
- Updating and maintaining internal tools.

Key Achievements

- Improved the performance of client applications and successfully pushed to Google Play Store and Apple App Store.

Projects

Plugin Electronics - <https://plugin-electronics.vercel.app/>

NextJS, TailwindCSS, ExpressJS, PostgreSQL, VueJS, Vercel

- E-Commerce Website for an electronics gadgets store.
- Client side cart functionality, checkout functionality, and more.
- Customer frontend on NextJS 14 App Router, Admin CMS on VueJS 3 and Backend on ExpressJS

Swift LMS - <https://swift-lms.vercel.app/>

NextJS, TailwindCSS, Supabase, Vercel

- LMS Website for university usage, with role-based access for teachers, students and administrators.
- Teachers can upload assignment files for students and grade the submissions uploaded by students.
- Administrators can register new users, add new courses and new modules for teachers.
- Real time chat feature that allows teachers and students to interact within the LMS and a discussion board for each module to encourage discussion.

WINC Library Management System - <https://winc-library.vercel.app/>

NextJS, TailwindCSS, Supabase, Vercel

- Library Management Website for my university library.
- Librarians can add new books, register new members and issue books to members.
- Search engine to find specific books to help members.

Education

University of Bolton, RAK Academic Centre

Software Engineering • 2021–2024

First Class Honors in B.Eng. (HONS) Software Engineering

International Indian School, Ajman

Higher Secondary Education • 2009–2021

CBSE Grade 12 Science: 96% (School Topper)

CBSE Grade 10: 91% (School Topper)

Skills

Full Stack Development

- NextJS
- ReactJS
- VueJS
- NuxtJS
- Tailwind CSS
- NodeJS
- ExpressJS
- Fastify
- AdonisJS
- HTML | HTML5
- CSS | CSS3

Programming

- TypeScript
- JavaScript
- Python
- C#
- Java

Database Management

- PostgreSQL
- MySQL
- MSSQL
- Supabase
- MongoDB

Miscellaneous

- Virtual Machines | VMs
- Microsoft Azure
- Nginx
- BullMQ
- Docker
- Git
- Github
- Jira
- Figma
- Canva

Languages

- English – Professional
- Urdu – Professional
- Bengali – Native
- Hindi – Intermediate

License

- Valid UAE Driver's License
